## DC Scientific Glass

Glassware and Accessories for Petroleum Test Methods

We have a complete line of glassware and accessories for D86 distillations; as well as digital probes regardless of the instrument manufacturer. We also make flash point tester probes, cloud and pour point jars, coking bulbs, D1160 flasks, viscometers, and oxidation stability testing glassware.

### ASTM D1160

Complete manual, semi-automatic and fully automatic distillation systems from BR Instrument.

### ASTM D1319

You can purchase a complete system or any of the individual component parts for the FIA test.
